President of General Affairs Bureau, Mr. Yanagida

Thank you for your hard work.

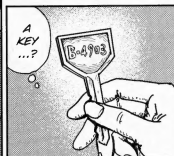

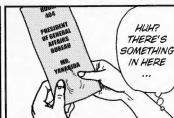

The newspaper box of room B-4903 on the 49th basement floor is filled up with a whole month's worth of newspapers.

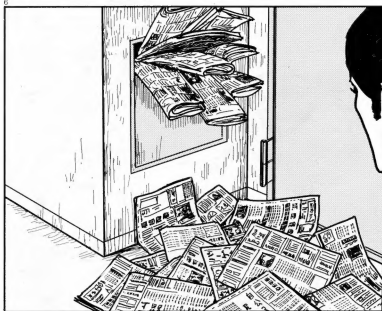

The resident is an elderly single man, so it's possible that he's become mummified. Please deal with this immediately.

Since you're a horror manga artist, this job should be perfect for you.

You might be able to use it as material for your manga!
